Dear Heritage Families:

We are announcing the fee structure for the 2022-23 school year for all our elementary grades.

- **No device usage fee** will be charged, however, damaged or lost items will still require a payment.
- **A simpler, less expensive supply list** has been developed for use by all elementary grades, district-wide.
- All elementary schools will charge the same **\$20 instructional fee** and no other fees will be charged for instructional supplies; this \$20 will cover items such as headphones, erasers, Primary journals, additional or specialized folders and notebooks, rulers, index cards, highlighters, agenda books, field day t-shirts, recorders, etc.
- Any elementary student participating in at least one school club will be charged **only one \$20 club fee** instead of multiple individual club fees.
- **No other fees** will be charged during the 2022-23 school year for elementary grades except for occasional field trips; the maximum fee an elementary parent will pay is \$40 (plus field trips)
- **No other requests** will be made for elementary parents to send in classroom supplies for the 2022-23 school year

A waiver or adjustment may be made for any student qualifying for free or reduced meals to ensure that no student is denied services due to the inability to pay. In order for your student to receive the fee waiver, you are required to complete the Educational Benefit Form (EBF).

If you would like to donate additional funds or supplies, you can do so by contacting the school office or the Family Resource Center.

Thank you for allowing us to serve your children!

Kentucky Energy Savings Fact Sheet

Changes Ahead

Winter is coming! Average electricity prices for homeowners have increased 10.5% over the same time period last year and could increase an additional 3% in 2023. Homeowners should be prepared that a larger percentage of household budget will be for electricity and home heating fuel expenses.

What's Going On?

The global pandemic and war have disrupted global energy markets. Kentucky's coal and gas resources are global commodities and due to supply and demand changes, prices have risen just like other items we use every day. As a result of fuel prices increasing, the price consumers pay for electricity will rise going into winter when heating demand increases.

Energy Efficiency Tips to Increase Savings

- Open window curtains during the day to allow sunlight to naturally heat the home, and close them at night to reduce the chill from cold windows.
- Replace furnace and heat pump filters once a month or as needed.
- Use a heavy-duty, clear plastic sheet on a frame or tape clear plastic film to the inside of drafty window frames during the cold winter months. Make sure the plastic is tightly sealed.
- When you are home and awake, set the thermostat as low as is comfortable.
- Keep the temperature of the water heater on the warm setting (120°F). This also helps avoid scalding.
- Find and seal air leaks around chimneys, pipe cut-throughs, and unfinished spaces behind cupboards and closets.

G-FORCE

A support program for grieving youth

Gravity. It grounds us. It holds us in orbit. It helps us stay centered. It pulls against us when rocketing into the stratosphere. Grief works much the same way. G-Force refers to the pull of gravity when making a transition forward. It takes practice and conditioning to withstand the pressure and to adapt. So does grief. We are not helpless in the face of loss. We can become stronger, more resilient, and confident that we can do hard things.

G-FORCE is a peer-centered education, support, and networking opportunity for youth coping with loss due to death. Meetings occur throughout the year offering a cycle every fall and spring following the school calendar. Youth can join at any point and re-up in an upcoming cycle.

G-FORCE meets at the Hosparus Health Grief Counseling Center
