2019-20 Phase Three: Executive Summary for Schools

2019-20 Phase Three: Executive Summary for Schools

Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

Heritage Elementary is a rural Shelby County school with strong community ties and support. Located in eastern Shelby County, Heritage is nestled among farmland yet only miles from our major interstate. This allows us to thrive in our community roots while having easy access to other schools in Shelby County. Few changes have occurred in our student-base over the last three years. We currently serve over 49% of our families as free or reduced. Additionally, this current school year, our enrollment stayed similar. Currently, we serve 463 students K- 5.

School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

At Heritage, we are committed to developing life-long learners through positive relationships and high expectations. Our parents, teachers, and staff live our daily mission: empowering life-long leaders. Our responsibility as educators is to remove all barriers thus ensuring limitless student success. Students deserve the right to grow beyond the limits of grade level expectations and standards. No glass ceilings of learning should ever exist. We stand firm on our belief that every child deserves to experience at least one year's growth in one year's time. Therefore, if a child requires "catch-up" growth to reach this goal, our teachers are committed to providing the interventions necessary for each child to attain success.

Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

Over the past 3 years, Heritage has remained above the state average in P/D for Reading and Math. While great strides have been made, much still needs to be accomplished. Continued work in the reading and mathematics instruction and teacher trainings increase effective instruction and thus student performance.

Additional Information

CSI/TSI Schools Only: Describe the procedures used to create the school's improvement plan and briefly state the specific efforts to address the causes of low student performance and resource inequities.

N/A

Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.
