

2020-2021 SCPS Board Goals

Responsible Collaborator

If we provide collaborative leadership among local business, industry, agricultural, healthcare and school leaders to streamline career and technical opportunities with minimal duplication, then our students will have seamless access to K-12 career learning opportunities. *(year 2 for this goal)*

Responsible Collaborator: Proposed Board Actions

1. Ensure funding/support for 2020–21 Dual Credit tuition
2. Co-Sponsor Shelby County Manufacturing Day
3. Board member participation on Agriculture Committee
4. Ensure FY22 Staffing allocation provides K–8 CTE staffing

Lifelong Learner

If we learn about performance assessment along with administrators, teachers, staff, and students, then we will have a deepened understanding and grow our collective capacity to support the performance assessment process in our schools.

Lifelong Learner: Proposed Board Actions

The Board will conduct the Fall 2020 School Reports as Exhibitions. Each school will provide an Exhibition of Learning to the Board and the Board will learn to use rubrics to provide effective feedback. This experience will deepen our understanding of the Exhibition process as a performance assessment.

Global Citizen

If we commit to serving our community, then we will model empathy and civic responsibility for our students.

Global Citizen: Proposed Board Actions

Each Board member will identify and participate in a community service leadership activity as evidence of civic responsibility in partnership with an approved student organization at one of our schools.

Effective Communicator

If we communicate effectively to the community about the strategies of SCPS to educate our students, then we will build support, cooperation and understanding among constituents.

Effective Communicator: Proposed Board Actions

Each board member will participate in one monthly video update to the community during the school year.
